Trade Opportunity Information

[1](#)7. The Ministry of Planning and Development (MPD) on behalf of the Government of Mozambique and the Millennium Challenge Corporation, on behalf of the United States Government have signed a Compact Agreement for a USD 507 million (MCC funding), to be implemented in 5 years. The objective of the proposed program is to reduce poverty through economic growth in Niassa, Cabo Delgado, Nampula and Zambezia provinces by focusing on certain investments in physical assets, policy reform, capacity building and institutional strengthening. Millennium Challenge Account Mozambique (MCA-Mozambique) on behalf of the Government intends to apply a portion of the proceeds of MCC funding, to eligible payments under this contract. Payments by MCA-Mocambique will be subject, in all respects, to the terms and conditions, including restrictions on the use of MCC funding of the Compact. No party other than the Government and MCA-Mozambique shall derive any rights from the Compact or have any claim to the proceeds of MCC funding. The program contains four projects including Water Supply and Sanitation, Roads, Land Tenure Services, and Farmer Income Support(FISP). Implementing entities for the various projects will include government ministries and agencies, NGOs, private companies,

or other entities. For the implementation of the program, the MCA-Mozambique is soliciting Consultant Firms to submit their technical and financial proposals in separate envelopes for the following service:

-- REF. NO. MCA-MOZ-CQS-1A-08-014

SIMPLIFIED ENVIRONMENTAL ASSESSMENT FOR THE FISP

18. The objective of the FISP is to stop the spread of Coconut Lethal Yellowing Disease (CLYD). A secondary objective is to improve productivity of coconut products and encourage diversification into other cash crop production. The project will eliminate biological and technical barriers hindering economic growth among farms and targeted enterprises located in the Compact area's eastern coastal belt (Zambezia and Nampula provinces) and, through crop diversification and improved farming practices, it will increase incomes lost to CLYD. With the above requested service, the consultants shall evaluate the potential negative direct, indirect, induced, and cumulative environmental impacts of the Project through the Simplified Environmental Assessment that will be conducted. In addition to this assessment, MCA-Mozambique will ensure that a project-specific environmental management plan (EMP) will be developed, implemented and monitored during project life-time. For the complete Request for Consultant Qualifications (RFQ) including the Letter of Invitation, Terms of Reference and required forms go to the following websites: <http://mcc.dgmarket.com> and <http://www.mpd.gov.mz>. Alternatively, contact the address provided in Item 6B. It is expected that the selected consultant be able to mobilize and start the assignment by October, 2008. Consultant submissions should make reference to REF. No. MCA-MOZ-CQS-1A-08-014: Simplified Environmental Assessment for the FISP, which must be submitted no later than September 26, 2008 by 10:00 am (local time) at the above mentioned address.
